**RE: Nucor Construction Project**

Dear Jerry,

Oftentimes in the business world, the words "thank you" are seldom used. When companies work together on projects doing a good job is expected and only when problems arise do additional comments come up.

Your firm was an exceptional firm to work with on the Nucor project. Given the nature of how this new structure was to be built, the timeframe to get it done and the amount of coordination required from all of the team members, everything really had to "click" for the facility to be the success that Nucor wanted.

Working together with CPM was a really great experience and we certainly look forward to future projects with your company. Over the years, we have both seen architectural firms come and go and construction firms come and go. Years later, companies such as ours continue to flourish because we understand the teamwork needed to be successful.

Thank you again for a great project!

Best regards,

**Sebree Architects, Inc.**

Nicolas M. Quintana
